# NUTISLIC

## PATCHES MODELLING CRITICAL BODY AREAS

**NUTISLIC** provide a simple and discrete method of improving the appearance of selected critical areas of the body. As a result, the patches can be adapted to your individual needs – you can select problematic areas which you want to model and tone up. **The patches can be used e.g. on arms, hips, stomach, buttocks, thighs or calves.**

It is an ideal product for the people who want to improve the appearance of critical body areas.

## DIRECTIONS FOR USE:

1. Open the metallic bag along the cutting line and remove the patch from the inner protective bag.
2. Apply one patch on clean and dry skin of the selected critical body area, away from joints or mucous membrane.
3. Press the patch against the skin for a dozen or so seconds. Make sure that the entire surface of the patch adheres firmly to the skin.
4. Leave the patch on for 24 hours. Then, replace it with another patch.

**Important:** Do not use any cream, lotion or other cosmetics in the area of the patch application, as this may cause the patch to peel off. You can bathe while wearing a patch, but long-term exposure to water is not recommended, as it may cause the patch to peel off.

## PRECAUTIONS:

The product is intended for external use only. Do not use on damaged, cut or irritated skin. Avoid contact with eyes. In case of contact with eyes, rinse immediately with plenty of water. Do not use in case of hypersensitivity

or allergy to any of the ingredients of the product. Discontinue use if irritation occurs. The product should not be used by children, pregnant or breastfeeding women. Persons taking medication or suffering from a medical condition should consult a physician before using the product.

**KEEP OUT OF THE REACH OF CHILDREN. STORE THE PRODUCT IN THE ORIGINAL PACKAGING, IN A DRY PLACE AT ROOM TEMPERATURE AND AWAY FROM DIRECT SUNLIGHT.**
